

Ware 4 Bins & Recycling

Bins, Trolleys, Recycling and Waste Containers

Stackabins

The stacking system of the Stackabin allows these high capacity containers to be easily stored while retaining a small footprint. They are ideal for the home or business where space is always at a premium.

- Separate containers for each type of waste ensures simplicity of use.
- The Stackabin system can be used with or without a liner for your convenience.
- Waste contamination is virtually eliminated and odours are contained by the self closing lid.
- Each unit offers a generous 37 Litre capacity.

Dimensions: Depth 450mm Deep, 330mm Wide, 450mm High.

Features: Built-in handle, deep collard lid for use without a liner and a unique 'scoop' design allowing access to each unit when stacked.

Colours: Available in Natural opaque, Blue, Duck Egg Green and Black.

Environmentally Friendly

All Stackabins are made from 90% recycled polypropylene. They also have a lower carbon footprint, being manufactured in the UK with minimal transport distances.
