

Ware 4 Bins & Recycling

Bins, Trolleys, Recycling and Waste Containers

Slim Jim bins

60 litre Slim Jims with locking trolleys

Made from durable polyethylene the Slim Jim bin is our best selling unit due to its efficient size, functionality and affordability. Slim Jim units will not rust, chip or peel and resist dents even in outdoor conditions. Construction also allows for easy cleaning, providing an even longer lifespan.

Slim Jim bins are available with a range of different coloured lids and apertures making them ideal for large scale recycling schemes. Lids available include lift handles, swing or hinge options, paper slots and twin holes for bottles or cans. Locking lids can also be added for confidential papers.

Benefits:

- Efficient size and shape for tight spaces
- Highly durable and easily serviced
- Wide range of coloured lids for simple waste separation
- 60 and 87 litre bodies available in various colours
- 87 litre with venting channels allows for easy bag removal
- Confidential locking options
