

## Litter Eaters

**These colourful Litter Eaters are robust and durable, easy-to-clean and suitable for a whole range of different environments.**

Litter Eaters come with an open hood which is suitable for the collection of most waste streams such as general waste, paper, cardboard, cans, plastic and glass bottles.

They are available in a range of bright colours making them ideal for a recycling scheme, helping to distinguish between different waste streams.

There are also a number of animal hood options which are ideal for schools and nurseries. See below for different options.

*Litter Eater animal hood options*
