

Ware 4 Bins & Recycling

Bins, Trolleys, Recycling and Waste Containers

Simple Steel

In day to day wear and tear the most critical parts of a waste bin are the hinge, lid, pedal and inner bucket.

The Simple Steel range has patented innovations in these mechanisms to make our bins more durable and better looking.

The design and large capacity of these bins makes them ideal for high traffic areas.

Specifications

- **Swing Top** – 50 litre capacity, 750mm high
- **Open Top** – 50 litre capacity, 710mm high
- **Dome Top** – 55 litre capacity, 920mm high
