

Ware 4 Bins & Recycling

Bins, Trolleys, Recycling and Waste Containers

Triple Units

Triple units provide a space saving and cost effective solution for the easy segregation of recyclable waste.

Trio Bin

The Trio bin uses text and colour coding to make it clear where each type of waste can be disposed.

- Each of the three 50 litre sections comes with individual sack holders.
- Trio Bin can be bolted to the ground.
- Optional transparent polycarbonate windows suitable for high security areas such as airport
- Optional raised weather cover.
- Dimensions: 150 litre. 820 x 290mm, 520mm diameter.

Villa-Eco Triple

This ecological waste recycling bin is available in anthracite grey or stainless steel.

48 litre capacity – one 26 litre section and two smaller 11 litre sections.

Villa Mercury Triple

Available in satin finished stainless steel, steel plate, and white or grey painted anthracite.

The lids are made from anodised aluminium and are available in blue, yellow, green or brown.

There are two size options; Tall or Short:

- **Tall:** 104 litre capacity. 271 x 511 x 860mm
- **Short:** 58 litre capacity. 271 x 511 x 500mm
